Salt Bath Curing System

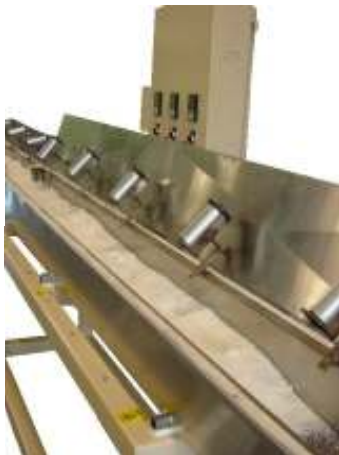

Rubber & Silicone Curing

Basic Specifications:

1. All STAINLESS steel construction
2. *Uses less than HALF the Industry Standard in Wattage*
3. 100% Fully Insulated Tanks...Lower Power useage
4. High Temperature Insulation Rated for over 2,000 F
5. AMS digital Auto Tune Temperature Controls
6. 3 Zone Temperature Control – Up to 475 F
7. Low Watt Density Heater - Longer Life Span
8. Roller Guides
9. Casters for easy movement
10. Standard Length 10'
11. Modular Design for any length requested
12. *Able to reach 400 F in approx. 2 ½ Hours*
13. Less than 10 kW!! Huge Savings in Energy!!

A.M.S. has engineered everything you need for your EPDM Rubber Extrusion!!

Ask about our Hot/Cold Rinse Tanks. All STAINLESS Construction with a closed loop **Eco-Friendly** Design!!

Ultra High Efficiency Design!!
Less than 10 KW's gets your salt up to temperature faster and cheaper!!
Innovative Engineering!!
